PROFESSIONAL SUMMARY

Student pursuing MCA from College of Engineering Thalassery under Cochin University of Science and Technology. I had hands-on experience with Full Stack Development with React, Typescript, Nodejs backend and PostgreSQL along with Django backend. And also hold good programming skills on JAVA and C from academics. With my strong academic background 91.67% I am looking for an opening IT industry to apply my skills and knowledge on real world problems and find solutions for personal growth and organisational growth.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Java, C, C++

Frontend: React.js, Tailwind CSS, HTML5, CSS3, JavaScript

Backend: Django, Django REST Framework, Node.js, Express.js

Databases: PostgreSQL, MySQL, Supabase, Prisma ORM

APIs & Auth: RESTful APIs, JWT, OAuth 2.0, Role-Based Access Control (RBAC)

DevOps & Tools: GitHub, Linux, Postman

Testing: Unit Testing, API Testing (Postman)

Methodologies: Agile, Scrum, MVC Architecture

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | Inker Robotics

Feb 2026 – Present (Ongoing) • Remote

- Develop and maintain scalable SaaS web applications using React, Typescript and Node.js for production-level use cases, working within an Agile development workflow.
- Design and implement RESTful APIs following REST best practices, ensuring efficient and secure client-server communication.
- Developed the project from scratch 100% solely along with documentation and diagrams

TECHNICAL PROJECTS

STUARTS — Student Freelance Collaboration Platform

Tech Stack: React, Django, REST Framework, PostgreSQL, JWT

Github: github.com/Sreeraj-SR/stuarts

- Architected and built a full-stack platform enabling student freelancers to manage portfolios, list services, and handle collaboration requests.
- Implemented a secure REST API layer using Django REST Framework with JWT-based authentication, token refresh, and role-based access control.
- Designed PostgreSQL database schema supporting user profiles, project listings, request management, and collaboration workflows.
- Performed API testing using Postman.

EPISTEME — Tech News & Community Platform

Tech Stack: Django, HTML, Tailwind CSS, SQLite

Github: github.com/Sreeraj-SR/episteme

- Built a full-stack tech news platform with personalised content delivery, user profiles, and a follow system using Django.
- Implemented complete authentication registration, login, and profile management with secure session handling and CSRF protection.
- Designed a category-based news listing and follow system, enabling users to curate personalised feeds based on topics of interest.
- Applied responsive UI design using Tailwind CSS along with custom CSS, ensuring accessibility across desktop and mobile screen sizes.

EDUCATION

Master of Computer Applications (MCA)

Pursuing

College: College of Engineering, Thalassery Kerala, India

University: Cochin University of Science and Technology (CUSAT)

- Aggregate: 91.67%
- Relevant coursework: Data Structures & Algorithms, Database Management Systems, Software Engineering, Computer Networks, Web Technologies

Bachelor of Computer Applications (BCA)

2020 – 2023

College: St. Mary's College, Sulthan Bathery Kerala, India

University: University of Calicut Kerala, India

- Score: 85%
- Relevant coursework: Lead College Event on Cyber Security Awareness and Working of Web which followed by classes on cyber security awareness on multiple schools.

CERTIFICATIONS

Ethical Hacking: NPTEL – IIT

Data Science with Django: Simplilearn

The Complete Web Development Bootcamp: Udemy

Python Programming: IIT Bombay (NPTEL)

EFSET English Certificate: C2 Proficient (EF Standard English Test)
